

WASTE RECEPTION TARIFF FOR VESSELS OFFSHORE

2025

GRT	PART 1			PART 2				
	Basic Fee (EUR)	Quantity of the waste can be discharged within BASIC FEE (m ³)		Waste Reception Fee (EUR per m ³)				
		MARPOL ANNEX-I (Bilge Water, Waste Oil, E/R Sludge)	MARPOL ANNEX-V (Garbage)	MARPOL ANNEX-I		MARPOL ANNEX-V	MARPOL ANNEX-VI	
				Slop	Bilge Water, Waste Oil, E/R Sludge	Solid Sludge	Garbage	Scrubber Waste (Sludge)
0-1,000	80	1	1	5	45.50	375	32.50	375
1,001-5,000	140	3	1					
5,001-10,000	210	4	2					
10,001-15,000	250	5	2					
15,001-20,000	300	6	2					
20,001-25,000	350	7	3					
25,001-35,000	400	8	3					
35,001-60,000	540	10	4					
60,001 and over	720	13	5					
After 17:00 on Saturdays and on Sundays and public holidays				6.25	56.88	375	40.63	375

EXPLANATIONS

1. If the amount of waste given is fractional, the amount is rounded up to the next whole number.
E.g. 0.2 m³ waste will be counted as 1 m³ waste.
1.3 m³ waste, 2 m³ waste will be counted etc.
2. Requests for the delivery of toxic liquid wastes (x, y, z and other substances) in the MARPOL 73/78 ANNEX II category cannot be accepted since they are not within the scope of the operating license of CLIAS.
3. Collection fee of Solid Sludge and Scrubber waste consists of Barge/Vehicle fee + Storage fee + Transport fee + Disposal fees.
4. Within the MARPOL 73/78 Annex-V category, for the wastes other than those not subject to disposal such as domestic waste and food waste, additional costs such as barge, vehicle, storage, transportation, disposal etc. are incurred and are reflected separately in addition to the garbage collection fee.
5. Bilge water, waste oil and E/R sludge that covered by basic fee must be delivered in total or separately based on the fixed quantity that determined in the 1st part of the Tariff with the title named "Type and Quantity of Waste Covered by Basic Fee". Quantities above this are charged according to the fees to be applied per m³ in the second part of the tariff.

E.g.:

GRT	Basic Fee (EUR)	Quantity of the MARPOL 73/78 Annex - I waste which can be delivered within basic fee
5,001 – 10,000	210	4 m ³ Bilge Water + 2 m ³ Garbage
5,001 – 10,000	210	4 m ³ Waste/Dirty Oil + 2 m ³ Garbage
5,001 – 10,000	210	4 m ³ E/R Sludge + 2 m ³ Garbage
5,001 – 10,000	210	1 m ³ Bilge Water + 3 m ³ E/R Sludge + 2 m ³ Garbage
5,001 – 10,000	210	1.5 m ³ Bilge Water + 2 m ³ E/R Sludge + 0.5 m ³ Waste/Dirty Oil + 2 m ³ Garbage

6. In the reception of wastes, it is obligatory to act within the scope of Circular No. 2022/14 which determines the procedures and principles regarding the notifications of the ships and the management of the wastes and published with the letter of the Republic of Turkey, Ministry of Environment, Urbanization and Climate Change, General Directorate of Environmental Management dated 09.09.2022 and numbered 84973951-010.06.02-4529292.
7. All ships make the necessary contribution to the continuation of the services provided by the port waste reception facilities. For this, it is obligatory to pay a basic fee at the rates specified in the first part of part 1 on the tariff.
8. Ships paying a fixed fee may deliver the type and amount of waste specified in the first part of tariff free of charge. For the wastes to be given out of the specified waste types and quantities, a fee is charged per m³ specified in the second part of the tariff.

9. State-owned non-commercial service ships, yachts and boats with a maximum capacity of 12 passengers, ships carrying passengers on scheduled voyages within the port limits and ships operating on the cabotage line do not pay a basic fee. In case of requests by ships passing in transit, a fee tariff per m³ is applied according to the type and amount of waste to be added after the basic fee is charged, regardless of the type and amount of waste.
10. 25% of the m³ fee specified in the second part of the tariff, according to the type of waste, for tankers of 150 gross tonnage and less and other ships of 400 gross tonnage on the cabotage line; a 50% discount is applied to the state-owned non-commercial service ships, yachts and boats with a maximum capacity of 12 passengers, and ships carrying passengers with scheduled voyages within the port limits, from the m³ fee specified in the second part of the tariff, depending on the type of waste.
11. For solid sludge (hard sediments collected from cargo tanks) and scrubber waste (sludge) disposal, it is preferred for receiving the solid sludge in big bags. And it very important that all the big bags containing solid sludge shall be leakproof and have clean outer surface. Otherwise, it would not be possible to receive big bags in bad conditions. Additionally, all the big bags shall be stowed at starboard side of vessel in order to be transferred to slop barge.
If the solid sludge and/or scrubber waste (sludge) is transferred in drums, so then all the drums shall have a clean outer surface, they shall be completely sealed with the lids (with locking mechanism) and there shall be no leakage from the drums. Otherwise, it would not be possible to receive the drums in bad conditions. Additionally, all the drums shall be stowed at starboard side of vessel in order to be transferred to slop barge.
12. As a result of the collection of the wastes from the ships, the waste transfer form will be prepared by the licensed waste reception barge, in accordance with the type and amount of waste, within the Integrated Environmental Information System of the Republic of Turkey Ministry of Environment, Urbanization and Climate Change, through the "Maritime Waste Application" (DAU), and the transfer will be completed. A copy of the form will be handed over to the ship delivers the waste, following the mutual signings by the officials of waste reception barge and of the ship delivers waste.
13. In the waste delivery operations of transit ships, it is mandatory for the ship's agent to apply for a "Transit Contact Permit" through the online transactions' application of the "General Directorate of Health for Borders and Coasts of Turkiye" before the arrival of the ship that will deliver waste, to obtain the necessary permission and to notify the C L I A S by e-mail.
14. After 17:00 on Saturdays and on Sundays and public holidays, tariffs excluding basic fee, solid sludge and scrubber waste are increased by 25%. The starting time for the surcharge application is the time of alongside of the waste collection barge.
